March 22, 2007

We recently completed our first transaction as mortgage brokers with Realty Plus Mortgage. We were able to provide financing to one of our high net worth clients who was interested in making a quick purchase but chose to mortgage a portion of the acquisition. The process was incredibly smooth and we were able to finance \$2.5M for our client in less than 14 days. This provided an invaluable service to our buyer, as we not only represented him in the purchase but were able to provide the financing as well. Once the disclosure and application were submitted, the communication and processing was performed by an absolute top notch team. Gary Barton and Steve Saenger were able to provide us an opportunity to not only solidify our relationship with this customer but gave him the ability to do "one stop" shopping and eliminated the numerous phone calls and e-mails that take up so much time. The customers are absolutely thrilled with their new home in Beaver Creek and we are extremely pleased to have Realty Plus on our team.
